ChatGPT Prompting
Cheat Sheet

Use this Cheat Sheet to master prompting

MODES AND ROLES

Intern: Find research on [insert topic]
Idea generator: Generate ideas on [x]
Editor: Edit and fix this text: [insert text]
Teacher: Teach me about [insert topic]
Critic: Critique my argument: [argument]

FORMAT

Code	Table	Essay
Tweet	Blog	Report
Social media post	Email	Presentation
	Bullets	Research

TONES
Write using [x] tone

Firm	Professional	Persuasive
Confident	Descriptive	Formal
Poetic	Humorous	Informal
Narrative	Academic	Friendly

HOW TO BUILD A CHAIN PROMPT WITH EXAMPLE

1. **Insert first prompt**: Give me a summary of this document [insert or copy paste document text]
2. **Modify the output**: Use the summary above and write a 500 word piece that explains the topic to beginners
3. **Modify the tone:** Change the tone of the answer above and make it sound more professional
4. **Modify the format**: Convert the answer above into text for a presentation with 1 slide for each key point

PROMPTS FOR MARKETERS

List [insert number] ideas for blog posts about [insert topic]

Create a 30 day social media calendar about [insert topic]

Generate landing page copy for [insert product description]

Write 5 pieces of Facebook ad copy for [product description]

Generate 5 persuasive subject lines for an email about [insert email description]

PROMPTS FOR CODING

Help me find mistakes in my code: [insert your code]

Explain what this snippet of code does: [insert code snippet]

What is the correct syntax for a [statement or function] in [programming language]?

How do I fix the following [programming language] code which [explain the functioning]? [insert code snippet]

PROMPTS FOR SALES

Generate 10 ways to generate leads for [product description]

Create a personalized sales email for potential customers. Include [topic, brand name, promo offers, etc.]

Write a sales landing page description for [product description]

Generate 5 personas I should include in my outreach for [X]

Generate a script to use when cold-calling [insert persona]

PROMPTS FOR DESIGNERS

What are some interactions to consider when designing a [insert app or website description]

Create a user persona for [describe product]

Generate 10 questions for a user interview regarding [topic]

Create a user journey for [insert app and persona description]

Generate UI/UX design requirements for [describe feature]

PROMPTS FOR RESEARCH

Identify the top 20 companies in [insert industry] by revenue

What are the top trends in [insert industry] for 2023?

Find me the best-reviewed software for [insert task]

Summarize the annual financial statement of [insert company]

Summarize this research paper and give me a list of the key insights: [insert research paper text]

PROMPTS FOR CUSTOMER SERVICE

Create a template for an email response to customers inquiring about [product].

What are the most frequently asked questions about [topic]?

Create a help page that explains how to use [your product].

Summarize the following knowledge base article to give step-by-step instructions: [insert article]

GENERAL PROMPTS

Rewrite this text and make it easy for a beginner to understand: [insert text].

I want to [insert task or goal]. Generate 5 for ideas for [insert task or goal].

Explain [insert topic] in simple and easy terms that any beginner can understand.

Summarize the text below and give me a list of bullet points with key insights and the most important facts.

Proofread my writing above. Fix grammar and spelling mistakes. And make suggestions to improve the clarity of my writing.

KEY USE CASES AND PROMPTS

Improve your writing: Proofread my writing above. Fix grammar and spelling mistakes. And make suggestions that will improve the clarity of my writing.

Delegate your research: I am creating a report about [insert topic]. Research and create an in-depth report with a step-by-step guide that will help readers understand how to [insert outcome].

Learn new skills: I want to learn [insert desired skill]. Create a 30 day learning plan that will help a beginner like me learn and improve this skill.

Use 80/20 to learn faster: I want to learn about [insert topic]. Identify and share the most important 20% of learnings from this topic that will help me understand 80% of it.

Summarize long texts, articles, and reports: Summarize the text below and give me a list of bullet points with key insights and the most important facts.

Simplify and understand complex documents: Rewrite this text and make it easy for a beginner to understand: [insert text].

Generate new ideas: I want to [insert task or goal]. Generate [insert desired outcome] for [insert task or goal].

Simplify and learn complex topics: Explain [insert topic] in simple and easy terms that any beginner can understand.

ChatGPT Data Analysis
Cheat Sheet

How to convert spreadsheets into insights and visualizations

HOW TO ACCESS IT

- Go to the settings menu in the bottom left corner of ChatGPT
- Click on **Beta Features** and turn on **Code Interpreter**
- Go back to the main screen, click on GPT-4, and select the **Code Interpreter** option.

BASIC ANALYSIS YOU CAN GENERATE
Example Prompts

Data Manipulation: Filter the data to include only rows where the age is greater than 25, then sort by salary.

Data Cleaning: Remove any duplicate entries and fill missing values in the 'age' column with the mean age.

Generate insights: Run a basic analysis on the data and generate a list of insights.

Apply Formulas and Functions: Create a custom formula and apply it to the data to generate total revenue by location.

Automation and Scripting: Write a script to automate the monthly report generation process.

Manipulate Styles and Formatting: Change the font color of the 'total' column to blue and apply conditional formatting to highlight values above 1000.

Work with Multiple Sheets: Access the second sheet in the workbook and calculate the sum of the 'expenses' column.

Save New Data: Save the modified data to a new CSV file.

ADVANCED ANALYSIS

Machine Learning and Predictive Modeling: Train a linear regression model using the features 'age', 'experience', and predict the 'salary'

Integrate with Databases: Import data from a SQL database and merge it with existing data in a spreadsheet.

Location Analysis: Create a pivot table summarizing sales by region and apply data validation rules to ensure accuracy in the 'quantity' column.

Time Series Analysis: Analyze the time series data for stock prices and identify the seasonal trends.

Text Analysis: Extract and analyze customer reviews from a column, identifying common positive and negative sentiments.

Conditional Operations: Apply a 10% discount to the 'price' column for products in the 'electronics' category.
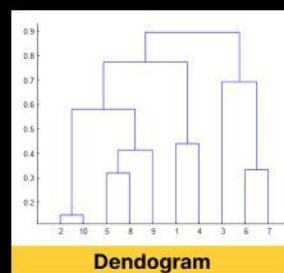

Integration with External APIs: Fetch weather data from an external API and integrate it with sales data to analyze weather-related sales trends.

Batch Processing: Write a script to process multiple CSV files in a directory, summarizing the sales data.

Data Transformation: Normalize the values in the 'height' and 'weight' columns using min-max scaling.

VISUALIZATIONS YOU CAN GENERATE

Use prompt: Generate a [insert visualization] from the data.

ChatGPT Plugins to 10x Your Productivity

Education

Tutory
Install
Access affordable, on-demand tutoring and education right at your fingertips.

Open Lecture
Install
Discover and access the right moments in open course lectures for targeted learning.

Giga Tutor
Install
Giga is your AI powered personalised tutor, it keeps the answers to your questions personalised.

Marketing

RoboAd
Install
Your AI powered Ad Assistant!

ChatSpot
Install
Get access to marketing/sales data including domain information, company research and search keyword research.

SEO CORE AI
Install
Use AI to analyze and improve the SEO of a website. Get advice on websites, keywords and competitors.

Writing

SEO.app
Install
Your personal SEO assistant for content marketing.

WebPilot
Install
Browse & QA Webpage/PDF/Data. Generate articles, from one or more URLs.

Link Reader
Install
Reads the content of all kinds of links, like webpage, PDF, PPT, image, Word & other docs.

Images

Photorealistic
Install
Generate Photorealistic prompts for Midjourney.

ImageSearch
Install
Find and display image from unsplash.

Polarr
Install
Search Polarr's massive pool of user generated filters to make your photos and videos perfect.

Coding

CreatiCode Scratch
Install
Display Scratch programs as images and write 2D/3D programs using CreatiCode Scratch extensions.

Noteable
Install
Create notebooks in Python, SQL, and Markdown to explore data, visualize, and share notebooks with everyone.

DEV Community
Install
Plugin for recommending articles or users from DEV Community.

Productivity

Decision Journal
Install
Become a better decision maker by keeping track of your decisions and reviewing how they turn out.

Zapier
Install
Interact with over 5,000+ apps like Google Sheets, Gmail, HubSpot, Salesforce, and thousands more.

Glowing
Install
Schedule and send daily SMS messages - reminders, inspiration, helpers and more.
